COMMUNITY BENEFITS OVERVIEW

Temple University Health System (TUHS), as the sole member of its affiliated hospitals and physician practices, provides access to facilities, programs, and other resources to carry out a broad array of community services. Through the employees and physicians of Temple University Hospital, Fox Chase Cancer Center, Jeanes Hospital, our faculty and community based Physician practices, we provide comprehensive services to improve the health and quality of living in North Philadelphia and our Southeast Pennsylvania region.

TUHS is dedicated to ensuring access to comprehensive primary and specialty quality patient care through population health, linked to academic excellence in medical education and research.

Our health outreach and education services are critically important in the diverse, economically challenged neighborhoods surrounding our hospitals. TUHS hospitals provide indispensable health care services to residents of Philadelphia, which is the largest city in America without

a public hospital. Among Pennsylvania's full-service safety-net providers, Temple University Hospital (TUH) serves the greatest volume and highest percentage of patients covered by Medicaid.

TUH is a 732-bed non-profit acute care hospital that provides a broad spectrum of primary, secondary, tertiary, and quaternary care to patients in throughout Southeastern Pennsylvania and beyond. TUH is accredited as an Adult Level 1 Trauma Center by the Pennsylvania Trauma Systems Foundation and is a Regional Burn Center. Among our recent distinctions is the achievement of Magnet status from the American Nurses Credentialing Center, a prestigious recognition of quality nursing care, community commitment and staff dedication bestowed upon only 8% of U.S. healthcare organizations.

In addition to our main campus on North Broad Street, TUH includes the Episcopal and Northeastern campuses, both of which are in economically distressed areas within three miles of the TUH and medical school campus. Our Episcopal Campus provides a recovery-oriented behavioral health treatment program, offering a welcoming approach and hope for those whose lives have been affected by mental illness and co-occurring disorders. It serves adults, age 18 or older, experiencing severe psychiatric symptoms that markedly impair their capacity to function adequately within the community. Many are diagnosed with psychiatric plus one or more substance or alcohol disorders. Almost half have diagnoses of hypertension, diabetes or both. Many have multiple co-existing medical illnesses.

All Temple physicians, whether faculty or community based, care for

patients covered by Medicaid in both the inpatient and outpatient setting. About 85% of TUH's inpatients are covered by government programs: 40% by Medicare and 45% by Medicaid. Patients dually eligible for both Medicare and Medicaid comprise about 52% of our Medicare inpatient base. Approximately 41% of our total inpatient cases include a behavioral health diagnosis.

TUH serves as a critical access point for vital public health services. Last year we handled more than 130,000 patients in our Emergency Department; about 12,000 patients in our Psychiatric Crisis Response Center; 2,100 discharges from our inpatient Behavioral Health unit; 700 victims of gun and stab violence in our Trauma Unit; and more than 300 patients in our Burn Center. We delivered about 2,500 babies, of whom nearly 90% were covered by Medicaid.

Temple physicians also staff important clinics that address major public health concerns, such as the Comprehensive NeuroAIDS Center at Temple University, which is dedicated to improving the public health impact of bench-to clinic research associated with HIV-induced neurological diseases and cognitive disorders.

As indicated in the 2016 Community Health Needs Assessment of the Philadelphia Department of Health, poverty, and poor living conditions are prevalent in the City's Lower North and North planning districts served by TUH, in which 45% of the population live at incomes below 100% of the Federal Poverty Level, and conditions of living and housing are suboptimal, illustrated by rat complaints of 20-42/10,000 population. The homicide mortality rate in these planning districts is

Name of the organization Temple University Health System, Inc.	Employer identification number 23-2825881
---	--

also the highest in the City of Philadelphia. In calendar year 2017, there were 1,200 opioid related deaths in Philadelphia, many of which occurred within the immediate service area of TUH. The disease burden in North Philadelphia is significant, including high prevalence of obesity, diabetes, hypertension, asthma, chronic obstructive pulmonary disease and heart disease.

Temple's nationally renowned physicians offer state of the art treatment options for patients with complex medical problems, some of whom were previously considered untreatable. Using sophisticated technologies and personalized treatments, Temple physicians are working to alter the course of serious disease. In over a dozen research centers, our faculty is speeding the transformation of fundamental scientific discoveries into practical therapies that may one day dramatically improve human health.

The Fox Chase-Temple Bone Marrow Transplant Program, a formal affiliation between Fox Chase Cancer Center and TUH, is an example of this type of transformative medicine. Last year it performed over 130 transplants, and has participated in countless research studies to promote life-saving treatment modalities.

Complementing our academic mission, The Temple Center for Population Health, LLC, (TCPH) promotes and supports the population health efforts of TUH and North Philadelphia. We align our efforts with the goals of the United States Department of Health and Human Services' three-part aim of achieving better care for patients, better health for our communities, and lower costs through health care system improvement.

With respect to prevention, education and outreach related to cancer, we are especially proud of the services provided through Fox Chase Cancer Center. As a National Cancer Institute Comprehensive Cancer Center, Fox Chase is one of only 47 centers in the country to qualify for this designation. It's Office of Health Communications and Disparities addresses the cancer needs of its geographically, racially and ethnically diverse population through individual contact, group teaching and other modes to educate about cancer and link to screenings.

Temple University Health System takes great pride in the broad array of services it provides to the community. Below we describe a few of the programs and activities conducted this past year to help advance the wellness and improve the quality of life in our communities.

CHARITY AND UNDER-REIMBURSED CARE: Our hospitals provided more than \$80 million in charity and under-reimbursed care.

SUBSIDIZING CRITICAL HEALTH SERVICES. Temple University Hospital invested about \$11 million to subsidize critical health care services needed in our community. This includes support for our outpatient emergency, acute care and psychiatric services, as well as the inpatient psychiatric services on our Episcopal Campus. These physical and mental health services are critical to the health and welfare of our vulnerable communities.

INVESTING IN HEALTH PROFESSIONS EDUCATION. Temple provides a

Name of the organization Temple University Health System, Inc.	Employer identification number 23-2825881
---	--

significant investment in education and training necessary to develop a professional healthcare workforce to benefit the broader community.

This includes part of the cost of training more than 500 residents and fellows in over 45 teaching programs. Our residents and fellows are involved in various efforts that directly impact the community, including our Cradle to Grave program, our HIV clinic, and other community outreach initiatives. The exposure that our Residents receive caring for our diverse, low-income community helps Temple address health disparities while developing our nation's future physicians.

COMMUNITY EDUCATION AND OUTREACH. We reached more than 185,000 community members through free community-based healthcare outreach, educational and community building programs that strengthen the health and safety of the neighborhoods we serve. We provide free health screenings and support groups on a variety of topics including alcohol and substance abuse, burn prevention, childbirth, diabetes and stroke prevention. Our extensive community building programs include efforts to advance early childhood education, food access and other social determinants of health.

WORKFORCE DEVELOPMENT.

Temple University Hospital invested more than \$850,000 in nationally-recognized partnership with our labor union to build our local workforce and improve skills needed in an evolving healthcare industry. In addition, Fox Chase Cancer Center (FCCC) oversees the following programs focused on high school and college students(1)TRIP Initiative Program: The Teen Research Internship Program (TRIP) is a rigorous lab-based course for high school students who are motivated to

explore their interests in science, technology, engineering, art, and math. (2) FCCC Career Series: This annual series is aimed at educating high school and undergraduate students who are spending their summer at Fox Chase about many of the career paths at Fox Chase. (3) STEM Scholar Experience: FCCC STEM scholars visit the Cancer Center and the Franklin Institute. During the visit to FCCC, the Cancer Center's trainees engage students in hands-on activities in their labs and network over lunch. During the visit to Franklin Institute, FCCC staff and trainees teach students about careers in science and medicine and educate students about vaccines, immunity and global health. More than 95% of the students that participate are underrepresented minorities from inner city Philadelphia schools. (4) University of Delaware-FCCC summer fellowship: The program is a continuing partnership between FCCC and the University of Delaware with the goal of providing students exposure to the diverse array of careers in science, medicine, and health care-related fields. Participants in this program are undergraduates from low socioeconomic status, underrepresented minorities, or first in college backgrounds. (5) Roxborough High School Partnership: FCCC works with staff to strengthen the content of the school's biotechnology programs by providing direction on the curriculum, facilities, technology and equipment. FCCC staff also work to engage biotechnology students in hands-on activities, provide mentoring experiences to the Cancer Center's trainees. The population for this program is inner city high school students and more than 95% of participants are underrepresented minorities.

VIOLENCE PREVENTION AND INTREVENTION. Our 360 degree approach addresses gun violence through prevention and intervention at the bedside, in

high schools and on the streets. Programs include Cradle to Grave, Turning Point, Fighting Chance and other youth programs.

OPIOID RESPONSE. We are a key partner with the city and state to address the opioid epidemic. Working closely with the Mayor's Task Force to Combat the Opioid Epidemic and the Philadelphia Departments of Health and Behavioral Health and Intellectual Disability Services, we implemented the Recovery Overdose Survivor Engagement (warm handoff) project in our emergency department and expansion of our crisis response center. We continue to explore opportunities for a unique opioid respite center on our Episcopal Campus, and are developing a coordinated network of providers to integrate and facilitate medical care and social supports for those suffering from Opioid Use Disorder.

PROVIDING CRITICAL SOCIAL RESOURCES. Temple connected more than 29,000 people with community-based social services, including free transportation services, legal services, and clothing to destitute patients upon discharge, and free pharmaceuticals, co-pays and medical supplies that provide our most vulnerable patients with the resources they need to help them heal after discharge.

ENSURING SAFE SLEEP AND A HEALTHY START FOR MOMS AND NEWBORNS. Our Sleep Awareness Family Education at Temple (SAFE-T) educates new moms and families about safe infant sleep through one-on-one education in the hospital and a certificate upon discharge. Families receive a Safe Sleeper kit complete with a sleep-safe baby box, layette items such as fleece and cotton clothing, sheets and blanket, a baby book, (English and Spanish language), diapers, a thermometer, nasal aspirator, baby

wash, smoke detectors (provided by the Philadelphia Fire Department) and educational materials and resource referral for cribs, car seats and other necessities. The program served nearly 5,000 caregivers and newborn infants this year.

PHILADELPHIA "MOM" PROGRAM. Temple's nursing staff and social workers assist the City in enrolling the new mothers shortly after delivering their infant and prior to discharge. New mothers and their babies from birth through the child's 6th birthday are connected with social, educational, and healthcare supports.

PREVAILING UPON CANCER. The Fox Chase Cancer Center operates several comprehensive screening and education programs, including its Community Cancer Screening Program which connects individuals with breast, skin, head, neck, and prostate cancer screenings. Fox Chase Speakers Bureau educates the community on breast, cervical, ovarian, colorectal, prostate, lung, skin and other cancers. Through our Resource and Education Center, Fox Chase provides patients, families, and community members with access to free cancer information and resources that address the cancer continuum. Fox Chase also provides psychosocial supports through several support groups. Our community partnerships include diverse entities including community-based, faith-based, business, legislative, and academic partners. Through these partnerships, we educated audiences and developed relationships to support community wellness.

IMMERSION IN SCIENCE HIGH SCHOOL PROGRAM.

Through its Immersion in Science High School Program, Fox Chase Cancer

Center provided free education programming to diverse high school students from the region. The Immersion Science program provides staged, comprehensive exposure of high school students to increase retention in biomedical careers and to provide direct instruction in laboratory techniques and scientific thinking. There is no cost to participate, and summer salaries are provided to students in the Phase 3 segment of the program.

PROMOTING COMMUNITY WELLNESS: Jeanes Hospital, our premier community hospital, is working beyond its hospital walls to address social determinants of health and improve the quality of living in our communities. We work with local community organizations to address the dangers of obesity by bringing a farmer's market to our campus, offering nutritional cooking demonstrations and partnering with food kitchens. Jeanes offers a safe, park-like walking trail for community members to enjoy healthy outdoor exercise. We also host some of our community education sessions outdoors on this track, where cardiologists and other health professionals explain firsthand the need to stay fit and healthy. Similarly, we work with community organizations to improve the community's access to mental health resources.

FOSTERING VOLUNTEERISM. Temple University Hospital's volunteer intern program connected undergraduate students who engage in proactive non-clinical rounding on inpatient and outpatient units and interact with patients and families. Volunteer interns gain familiarity with hospital settings while enhancing the experience of patients and visitors. Total volunteer hours logged last year was 15,431 serving

74,951 patients, helping to advance healing through their compassionate services to patients and their families.

EMERGENCY PREPAREDNESS AND RESEARCH. This program helps ensure our staff and hospital facilities are prepared to continue to provide safe, quality patient care even under the most austere conditions. We work on many levels, both inside and outside the Temple Health System, educating our communities about the importance of personal preparedness. Temple's Emergency Preparedness and Research Program is a critical link in the federal, state, and local disaster response plans.

TEMPLE CENTER FOR POPULATION HEALTH. This center serves as an interface with federal, state and local agencies and with community based organizations to collaborate on initiatives to improve the health of our low-income, diverse, medically complex population.

COACH INITIATIVE. Southeast Pennsylvania Collaborative Opportunities to Advance Community Health (COACH) initiative. In partnership with the U.S. Department of Health & Human Services, Philadelphia Department of Health and the Healthcare Improvement Foundation, Temple helps address food insecurity. In selected clinical settings, a member of our hospital staff asks patients about their access to sufficient food. If a patient indicates food insecurity, we refer the patient to community resources for SNAP food assistance, food banks and other needs.

well as providing assistance with out of pocket medical expense. Our team of knowledgeable and caring professionals help patients understand their insurance coverage, limitation and out of pocket obligations. They assist patients and their families by answering their questions regarding the cost of healthcare services, providing information and guidance in comparing health plans, and enrolling them in government funded insurance. All of our counselors are CMS Certified Application Counselors. In addition, they assist patients in applying for Temple hospitals' Charity Care and Sliding-Scale Financial Assistance program and setting up payment plans. The financial counselors also assist patients in qualifying for patient assistance programs to cover most of the out of pocket costs for expensive medications. Last year we assisted countless patients and processed over 5,000 applications for coverage.

MULTI-CULTURAL SERVICES. Our nearly 400 language proficient bilingual staff, who we train and credential, performed thousands of interpretations last year. This unique program, known for its excellence, is one of many resources we provide to non-English speaking patients and families. We also assist other area hospitals that call on us to adapt our linguistic services module to their patient populations.

PATIENT FAMILY ADVISORY COUNCILS (PFACS). Under the leadership of Temple University Hospital's Office of Patient Experience, we continued the six Temple Physicians Inc. (TPI) and the Temple Heart and Vascular Institute PFACs. We also created a new Temple Trauma Unit Injury PFAC, for a new total of eight PFACs. The goal of these committees is to

engage and encourage the participation of patients, their families, and members of the community in evaluating patient satisfaction. Our PFACs are currently setting priorities as well as developing recommendations for improving Temple University Hospital's services, programs, communications and policies to better meet the needs of patients and families with the full support of Temple Health leadership.

AMERICAN RED CROSS BLOOD DRIVES. We help ensure that our nation has a safe and reliable blood supply. Temple hospitals helped collect more than 550 pints of blood from employees, physicians and community members.
