Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>		
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>		
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer lines 3b and 3c below.</i>		
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>		
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>		
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.</i>		
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>		
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>		
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>		
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?		
c Substitutions only. Was the substitution the result of an event beyond the organization's control?		
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>		
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990).</i>		
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? <i>If "Yes," complete Part I of Schedule L (Form 990).</i>		
9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? <i>If "Yes," provide detail in Part VI.</i>		
b Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? <i>If "Yes," provide detail in Part VI.</i>		
c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? <i>If "Yes," provide detail in Part VI.</i>

11a		
b A family member of a person described on line 11a above?		
11b		
c A 35% controlled entity of a person described on line 11a or 11b above? <i>If "Yes" to line 11a, 11b, or 11c, provide detail in Part VI.</i>		
11c		

Section B. Type I Supporting Organizations

	Yes	No
1 Did the governing body, members of the governing body, officers acting in their official capacity, or membership of one or more supported organizations have the power to regularly appoint or elect at least a majority of the organization's officers, directors, or trustees at all times during the tax year? <i>If "No," describe in Part VI how the supported organization(s) effectively operated, supervised, or controlled the organization's activities. If the organization had more than one supported organization, describe how the powers to appoint and/or remove officers, directors, or trustees were allocated among the supported organizations and what conditions or restrictions, if any, applied to such powers during the tax year.</i>		
1		
2 Did the organization operate for the benefit of any supported organization other than the supported organization(s) that operated, supervised, or controlled the supporting organization? <i>If "Yes," explain in Part VI how providing such benefit carried out the purposes of the supported organization(s) that operated, supervised, or controlled the supporting organization.</i>		
2		

Section C. Type II Supporting Organizations

	Yes	No
1 Were a majority of the organization's directors or trustees during the tax year also a majority of the directors or trustees of each of the organization's supported organization(s)? <i>If "No," describe in Part VI how control or management of the supporting organization was vested in the same persons that controlled or managed the supported organization(s).</i>		
1		

Section D. All Type III Supporting Organizations

	Yes	No
1 Did the organization provide to each of its supported organizations, by the last day of the fifth month of the organization's tax year, (i) a written notice describing the type and amount of support provided during the prior tax year, (ii) a copy of the Form 990 that was most recently filed as of the date of notification, and (iii) copies of the organization's governing documents in effect on the date of notification, to the extent not previously provided?		
1		
2 Were any of the organization's officers, directors, or trustees either (i) appointed or elected by the supported organization(s) or (ii) serving on the governing body of a supported organization? <i>If "No," explain in Part VI how the organization maintained a close and continuous working relationship with the supported organization(s).</i>		
2		
3 By reason of the relationship described on line 2, above, did the organization's supported organizations have a significant voice in the organization's investment policies and in directing the use of the organization's income or assets at all times during the tax year? <i>If "Yes," describe in Part VI the role the organization's supported organizations played in this regard.</i>		
3		

Section E. Type III Functionally Integrated Supporting Organizations

- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (for example, open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part I, Line 7:

As set forth in the Temple University Hospital Emergency Care, Charity

Care, Financial Assistance, and Uninsured Discount Policy, it is the

policy of Temple University Health System to provide all necessary urgent

and emergent care to patients without regard to their ability to pay for

such care. Given this mission and within the guidelines of prudent

business management, it is further the policy of Temple University Health

System (TUHS) that an orderly and controlled system for the write-off of

all types of Bad Debt and Charity Care balances is in effect to ensure

maximum collections. All patients have the option to apply for the TUHS

Charity Care Program. The guiding principles behind this policy are to

treat all patients equally, with dignity and respect, to serve the

emergency healthcare needs of everyone in the community, to assist

patients who cannot pay and to balance appropriate financial assistance

for patients with fiscal responsibility. Patients and their families have

a responsibility to assist TUHS in qualifying them for financial

assistance.

TUH Inc.'s cost to charge ratio for Part 1, lines 7a through 7d is derived

Part VI Supplemental Information (Continuation)

by total expenses divided by the total gross charges.

Part I, Line 7g:

Temple University Hospital invested about \$44 million to subsidize critical health care services needed in our community. This includes support for our outpatient emergency, acute care and psychiatric services, as well the inpatient psychiatric services on our Episcopal Campus. These physical and mental health services are critical to the health and welfare of our vulnerable communities.

Part II, Community Building Activities:

Temple University Hospital engages in numerous community building activities throughout the year. These activities, separate from our "community health improvement" activities, advance the health or safety of the neighborhoods we serve.

A summary of our community building and other community benefit activities is provided in our Community Benefit Report posted in plain view on our hospital's website at <https://www.templehealth.org/locations/temple-university-hospital/about/community-health>

COMMUNITY SUPPORT.

(1) Emergency Preparedness and Research: This program helps ensure that our staff and hospital facilities are prepared to continue to provide safe, quality patient care under the most austere conditions. This program is a critical link in federal, state and local disaster response

Part VI Supplemental Information (Continuation)

plans. Our Emergency Preparedness Department is involved in three local committees, including the North Philadelphia Emergency Healthcare Support Zone, the Regional Hospital Subcommittee, and the Emergency Support Function-8 Work Group. These committees focus on creation of drills, policy development, and continuing education.

(2) Employee Community Engagement: Temple University Hospital conducts numerous engagement activities throughout the year, including collections for new coats and clothing, holiday gifts, food, and school supplies to benefit low-income families living in our communities. We are particularly proud of the support that we provide to local public schools, where many families have limited resources to purchase cold weather clothing and school supplies for young children.

(3) At Your Service: Temple University Hospital's volunteer intern program connected undergraduate students with interest in medical careers who engage in non-clinical rounding on inpatient and outpatient units and interact with patients and families. Interns gain familiarity with hospital settings while enhancing the experience of patients and visitors.

(4) Support for Early Learning: Temple University Hospital's Episcopal Campus provides facility use for the charitable purpose of providing early learning education for low-income children with intellectual and developmental disabilities.

(5) Southeast Pennsylvania Collaborative Opportunities to Advance Community Health (COACH) initiative: In partnership with the U.S. Department of Health & Human Services, Philadelphia Department of Health

Part VI Supplemental Information (Continuation)

and the Healthcare Improvement Foundation, Temple helps address food insecurity.

(6) Hospital to Housing: As a foundational partner in the Estadt-Lubert Collaborative for Housing and Recovery, Temple University Hospital is working with Project Home to address the opioid epidemic in our Kensington community. This unified approach eliminates gaps in treatment and helps ensure a seamless transition from hospital discharge to temporary housing for individuals experiencing homelessness.

WORKFORCE DEVELOPMENT

(1) Investment in Community's Healthcare Workforce: The purpose of this partnership with the District Council 1199C Training and Upgrade Fund is to build our local workforce and improve skills sets needed to deliver quality healthcare. This involves comprehensive training and education for workers living in our community, which helps to adapt and improve skills that enable them to participate in a changing healthcare workplace. About half the students are union members and half from the general community, including laid-off workers and those receiving public assistance. Career pathways include nursing, behavioral health, allied health, childcare, and health IT. Education services include GED classes and testing as well as ESL and safety instruction.

(2) TEACH High School Mentorship: Our Technical Education and Careers in Healthcare (TEACH) collaborative with the Philadelphia School District provides paid internships for high school seniors. We recruit from local schools and expose students to roles in outpatient rehabilitation, supply

Part VI Supplemental Information (Continuation)

chain, dietary, patient transport, and environmental services. We provide on the job training and help develop resume and interview skills. After completing their first semester, interns have an option to return for a second semester with a goal of employment upon graduation.

(3) Community Health Worker Program: In partnership with Temple University's Center for Social Policy, District Council 1199c Training and Upgrade Fund and Philadelphia Workforce Development Corporation, this program trains unemployed members of our community to become Community Health Workers. Through this program, we are helping residents develop valuable job skills while also achieving national goals of improving healthcare quality, outcomes and cost.

(4) Learn to Earn: Through unique partnerships with external job-training organizations who provide free instruction and certifications, we recruit local community members as medical assistants, pharmacy technicians and information technology professionals.

(5) Nursing Scholars Program: Operated through innovative partnerships, this program provides students applying to or enrolled in an RN or CRNA program with up to \$40,000 of loan sponsorship if they commit to working for Temple Health upon graduation.

Part III, Line 2:

Effective July, 1, 2018, the Health System adopted a new revenue recognition accounting standard that resulted in significant changes to the methodology for reporting bad debt expense. Under the previous standard, estimates for amounts not expected to be collected based on

Part VI Supplemental Information (Continuation)

historical experience were recorded within net patient service revenue and then recognized as bad debt expense. Under the new standard, estimates for unrealizable amounts are recognized as implicit price concessions that are a direct reduction to net patient service revenues. As a result, the amount of bad debt expense reported in the Health System's financial statements has been greatly reduced, despite the fact that overall collection rates have not changed.

Part III, Line 8:

Community Benefit as in Charity Care is when estimated cost of providing services is in excess of payments received. In 2024, the cost of providing services to the Medicare population was \$24,453,162 higher than revenue. Medicare allowable cost was based on cost apportionment derived from the Medicare Cost Report. The Medicare shortfall carried by TUH provides a community benefit because it benefits a charitable class, the elderly.

Part III, Line 9b:

Temple University Hospital's collection policy contains provisions on the collection practices to be followed for patients who are known to qualify for charity care. If a patient does not qualify for charity care or qualifies for only a charity care discount, the normal billing process of four (4) statements over a span of at least 120 days will occur. If no patient response is received, a write-off request form will be completed by the collection specialist and submitted for proper signature authority for agency referral. Once approved, the account will be transferred to the Bad Debt Financial Class. The account will be forwarded to the collection agency for additional collection effort. Collection vendors

Part VI Supplemental Information (Continuation)

are required to include in their collection notifications notice that TUH provides free and/or reduced price care to persons who qualify, that TUH provides assistance in applying for and obtaining government funded insurance, and that patients can contact TUH's Financial Services Department for assistance.

Part VI, Line 2:

In addition to our Community Health Needs Assessment described in Part V Section B, Temple University Hospital (TUH) further assesses community health needs using comprehensive sets of internal and external data sources. Externally, we rely largely on health data compiled by federal, state, city, and community-based health organizations, including the following:

Internally, we rely on the following sources:

*Feedback from the Temple University Hospital Community Advisory Council.

The purpose of the Community Advisory Council is to help Temple University

Hospital achieve its mission, including its responsibility to Medicare and

Medicaid to achieve equitable and high quality care, with a focus on the

following community health goals: To promote access to quality healthcare,

with emphasis on those residing in the communities served by the Temple

University Hospital; To advise Temple University Hospital clinical and

administrative leadership on community health needs and barriers to care;

To develop innovative approaches for reducing health disparities; for

enhancing care quality and affordability; and for promoting access to

clinical and social services.

*Performance Improvement, Risk Management and Patient Safety outcomes.

*Feedback from community members of our board of directors and routine

interaction with neighborhood community organizations.

*Historic, service line specific utilization data.

*Organizational community risk assessments (Infection Control, Environment

of Care, Emergency Management, Fire Safety Management, Disaster Response).

*In addition to assessing data sources, we work closely with the City of

Philadelphia Department of Public Health's Health Centers, other local

Federally Qualified Health Centers (FQHCs), the City's Police and Fire

Departments and other community-based health and social services

organizations to address specific needs of vulnerable populations. These

partnerships enable us to coordinate care delivery in both inpatient and

outpatient settings and improve health outcomes for the communities we

serve.

To support moms and newborns, we collaborate with Esperanza Community

Health Center (Esperanza), Delaware Valley Community Health, and Greater

Philadelphia Health Action to provide a full range of obstetrical

services.

Temple University Hospital also works closely with our community partners

to provide adult health services. Esperanza Physicians maintain staff

privileges and provide continuity of care for their patients at our

hospital. Additionally, Esperanza participates in our Internal Medicine

Residency Programs. Delaware Valley Community Health and the Greater

Philadelphia Health Action also refer their patients to Temple University

Hospital for inpatient care.

Representatives of Temple University Hospital serve on several health-and

safety related boards and committees of the City of Philadelphia,

of Behavioral Health and Intellectual Disability Services.

Part VI, Line 3:

34 Financial Counselors assigned to Temple University Hospital screen all
uninsured and underinsured patients (including those with high deductibles
and co-pays) who are hospitalized or require elective outpatient hospital
services to determine their eligibility for government funded medical
insurance coverage such as Medicaid and CHIP.

*Patients that meet the qualifications for these programs are assisted by
financial counseling staff throughout each step of the application
process. Medicaid applications are submitted by TUH on the patient's
behalf and tracked until final determination.

*Patients who do not qualify for government-funded programs are screened
for Temple University Health System's Charity Care program to determine
their eligibility for free or reduced cost care.

*Temple's Charity Care discounting policy is not restricted to Emergency
Department patients, but is available to inpatients and outpatients as
well.

*Patients who contact the Hospital's Business Office concerning bills they
have received that they cannot afford to pay are also screened for Charity
Care eligibility.

*The Financial Counseling Staff at Temple University Hospital also offers

assistance in obtaining supplemental coverage as well as prescription drug
benefits.

*Patients are informed of Temple's Financial Services, and direction on
how to access these services, through the following means:

*Posters in plain view at inpatient, outpatient and emergency registration
areas and billing offices;

*Patient discharge summaries, billing invoices and vendor collection
notices; and

*Hospital website.

[alth](https://www.templehealth.org/locations/jeanes-campus-tuh/about/community-health), our primary service area (TUH Service Area) is comprised of the

following zip codes: 19111, 19120; 19121; 19122; 19124; 19125; 19132;

19133; 19134; 19135; 19140; 19144 and 19149. These zip codes represent

about 70% of where our patients reside seen on an inpatient and

observation basis. Our service area's population has a disproportionately

high percentage of non-college educated residents living in poverty

compared to the city, state, and nation.

The following data is current as of the time of conducting our most recent

3-year Community Health Needs Assessment referenced above.

Part VI Supplemental Information (Continuation)**A. Population and Population Growth**

The TUH Service Area's includes a population of about 550,000, which is about one-third of Philadelphia's population of about 1.5 million.

B. Age Distribution

The TUH Service Area's age distribution reveals an overall younger population with 25.8% under the age of 17; 27.1% age 18-34; 34.8% age 35-64; and 12.3% age 65 and up.

C. Education Level

The population in the TUH service area consisted of 61.6% with a high school education or less compared with national average of 61.5%. The TUH service area population consists of 38.4% with education beyond high school, compared with national average of 61.5%.

D. Unemployment and Household Income**Unemployment**

Philadelphia's unemployment rate is 9.2% compared with the 3.4% national average.

(Source: Bureau of Labor Statistics, Local Area Unemployment Statistics, CY 2022)

Household Income

59.5% of households in the TUH service area earn less than \$50,000 per year, compared with the national rate of 34.8%.

E. Population Below Federal Poverty Level

Approximately 30% of the population living within TUH's service area lives at or below the federal poverty level.

F. Race/Ethnicity

In TUH's service area, 35.4% of the population identifies as Black; 31.5% as Hispanic, non-black; 21.4% as White Non-Hispanic; 7.7% as Asian&

Part VI Supplemental Information (Continuation)

Pacific; and 4.1% as others.

G. Payer Mix

Approximately 79% of TUH service area's residents were covered by either

Medicaid or Medicare: 49.1% for Medicaid, and 29.9% for Medicare.

Part VI, Line 5:

In addition to the Community Building activities described in Section V

above, Temple University Hospital organized or participated as a key

partner in several community health improvement activities. These

activities are free to the community, subsidized by Temple University

Hospital, do not generate a patient bill, and are carried out for the sole

purpose of improving community health.

TUH is an indispensable provider of health care in the largest city in

America without a public hospital. Among Pennsylvania's full-service

safety-net providers, Temple University Hospital serves the greatest

volume and highest percentage of patients covered by Medicaid. About 86%

of our inpatients are covered by government programs: 42% by Medicare and

44% by Medicaid. Temple University Hospital is in a medically underserved

area.

During our FYE June 30, 2024, Temple University Hospital engaged in

numerous programs and events serving thousands of community members. Below

are selected highlights.

(1) Addressing the Opioid Epidemic: Temple University is on the front line

addressing this public health crisis: 25% of our inpatients have a

substance use disorder; our service area's drug overdose mortality rate is

Part VI Supplemental Information (Continuation)

seven-times the national rate and has the highest opioid mortality rate in the City of Philadelphia. Our Temple Recovery Using Scientific Treatment (TRUST) Clinic, which is integrated into our family medicine and general internal medicine practices, provides low-barrier substance use disorder treatment with on-site peer recovery and case management services. The TRUST Clinic supports community-based primary care providers and Temple University Hospital's Emergency Departments at its main, Episcopal and Jeanes campuses.

(2) Addressing Public Health Impact of Gun Violence: Temple University Hospital's prevention and intervention programs provide a comprehensive approach to addressing this public health crisis. With the addition of a full-time psychologist, Turning Point offers cognitive-based and trauma-informed mental health services to patients. Cradle to Grave is our collaborative program with the Juvenile Justice Department and local schools that works with at-risk youth to break the cycle of gun violence. Our Fighting Chance program is one of the nation's few initiatives that teach community members how to provide basic first aid to gunshot wound victims.

(3) Healing Through Work: Our partnership with the Pennsylvania Commission on Crime and Delinquency and Philadelphia Works connects victims of gun violence with gainful employment to disrupt the cycle of interpersonal violence, open pathways, and bring stability to lives. A workforce development specialist enrolls participants, helps set career goals, creates access to career pathways, and provides ongoing training and mentorship.

(4) Trauma Victim Advocate Program: We provide social, emotional, and

Part VI Supplemental Information (Continuation)

material support to patients and families from their time of entry into our hospital through discharge. Our 24/7 advocate team offers counseling and facilitates access to victim's services that aid with post-traumatic recovery and community re-integration. We provide referrals to crime agencies to assist with relocation, recovery of lost wages, unpaid medical bills, and mental health services. In FY24, we linked more than 1,300 patients to North Philadelphia-based crime victim service agencies through TUH's 24-hour Trauma Advocate Program.

(5) Cure Violence Philadelphia (CVP): This structured violence intervention program is based on the premise that violence is a public health issue. The program is designed to reduce the spread of violence through interrupting its transmission, concentrating on those at highest risk, and changing social norms that propagate violence. Trained outreach workers identify and mediate conflicts in the community. They help high-risk individuals obtain the social services they need -- making them less likely to commit violence.

(6) Improving Maternal Health Outcomes: In pursuit of our mission to improve health outcomes for birthing people, Temple is opening the Philadelphia region's only hospital dedicated to women and family health. The campus offers OB/GYN, pediatrics, and radiology outpatient services. The hospital will open in 2025 with state-of-the-art Level III Intensive Care Unit, Labor and Delivery services, Maternal Intensive Care, Medical Surgical Units, and a Fetal Care Center. Outpatient offerings include maternal fetal medicine, family practice, and other wraparound services.

(7) Care Transitions & Community Health Workers (CHW) Programs: Our CHWs

Part VI Supplemental Information (Continuation)

conduct home visits, schedule and attend doctor appointments, coordinate transportation, and connect with social supports to improve quality of life and treatment outcomes. Our EPIC social determinants of health survey tool helps identify gaps in patient needs such as housing, food, access to internet, transportation, utility assistance, and general health literacy.

(8) Multi-Visit Patient Clinic: Provides a full continuum of care for patients with high emergency department use and frequent inpatient admissions. Upon discharge, patients are linked with a Community Health Worker (see above). Patients enrolled in the clinic show a a 68% reduction in inpatient utilization, demonstrating that patients are seeking care in a more appropriate setting.

(9) Certified Peer Recovery Specialist Team: We hired a team with lived experience and specialized training that links overdose patients and families with needed social services after treatment in our Emergency Departments and Crisis Response Center.

(10) Food Insecurity & Nutrition: Our Farm to Families program brings fresh, low-cost produce to North Philadelphia families through home delivery and neighborhood distribution to address obesity, food insecurity, cardiovascular disease, and diabetes related to poor diet and lifestyle. Families can use SNAP benefits and a "prescription" from a Temple doctor to purchase local fruits and vegetables helping them build capacity for healthier eating habits. In partnership with the Lewis Katz School of Medicine, St. Christopher's Foundation for Children and the Lancaster Farm Fresh Cooperative, food is sourced, packaged, and delivered to community food hubs. Our Jeanes Campus offers a seasonal fresh farm

Part VI Supplemental Information (Continuation)

market, nutritional cooking demonstrations, and community access to its walking trail. Our Episcopal Campus operates a free food pantry, providing fresh fruits, vegetables, dairy, meats and canned goods to the community weekly.

(11) Community Health Outreach: Temple University Hospital participated in numerous health fairs serving our immediate community to build trust and break down barriers to care. We often collaborate with Temple University's Schools of Medicine, Public Health, Dentistry, and Pharmacy to provide health screenings and education on a variety of health issues affecting residents, including diabetes, obesity, cancer, depression, anxiety, addiction, and PTSD. Health professionals from across Temple University Hospital's departments engaged in numerous outreach activities with government offices and community-based organizations. These include free health screenings and education on cancer, behavioral health, substance abuse, burn prevention, childbirth education and yoga instruction for expecting moms, diabetes care, smoking cessation, LGBTQ health, stroke prevention, and other topics.

(12) Social Supports: Our Social workers connected thousands of people with community-based social services, including free transportation, legal services, clothing, pharmaceuticals, co-pays, and medical supplies. We provide these supports for our vulnerable patient population to ease their transition to home after discharge or outpatient treatment.

(13) Behavioral Health Community Education. Our physicians and staff provide community-based education on seeking help for depression, suicidal behavior, and other mental health issues.

Part VI Supplemental Information (Continuation)

In addition to the above, Temple University Hospital offers several culturally competent services to augment our ability to provide access to high quality care and improve outcomes for our patients and their caregivers. Below are selected highlights.

NOTE: Part VI, Line 5 continues after Part VI, Line 6

Part VI, Line 6:

Temple University Hospital is a member of the Temple University Health System, Inc. It is the chief clinical teaching site for the Temple University School of Medicine. Consistent with its mission to provide access to the highest quality of health care in community and academic settings, Temple University Hospital supports Temple University's Health Sciences Center academic programs by providing a clinical environment and research programs that offers high quality education and training for health care professionals. The missions of other members of the Temple University Health System similarly advance the health systems goals, as follows: the hospital of the Fox Chase Cancer Center is devoted solely to cancer treatment, research, and prevention; the Temple Health System Transport Team, Inc. mission is to provide the highest level of critical care transport services available in the mid-Atlantic region; the Institute for Cancer Research, Fox Chase Cancer Center Medical Group and Fox Chase Network's mission is to prevail over cancer, marshalling heart and mind in bold scientific discovery, pioneering prevention and compassionate care; the Temple Physicians, Inc., mission is to provide the highest quality of clinical care as well as to support the clinical, administrative and corporate activities of the Temple University Health

Part VI Supplemental Information (Continuation)

System; and the mission of Temple Faculty Practice Plan, Inc. is to provide access to the highest quality of clinical care to the patients of North and Northeast Philadelphia and surrounding areas, and to support the clinical, administrative, and corporate activities of Temple University Health System while continuing to support the academic and research mission of Temple University's Lewis Katz School of Medicine. The mission of Chestnut Hill Hospital is to provide compassionate, accessible, high quality, cost-effective healthcare to the community, to promote health, to educate healthcare professionals; and to participate in appropriate clinical research.

Part VI, Line 5

(14) Financial Services: Temple employs Financial Counselors dedicated to helping uninsured and under-insured patients obtain medical coverage as well as providing assistance with out-of-pocket medical expenses. Our team helps patients understand their insurance coverage, limitations and out-of-pocket obligations. They assist patients and their families by answering their questions regarding the cost of healthcare services, providing information and guidance in comparing health plans, and enrolling them in government funded insurance plans such as Medicaid, Medicare and ACA Marketplace plans. All our counselors are CMS Certified Application Counselors. They assist patients in applying for Temple Hospitals' Charity Care and Sliding-Scale Financial Assistance program and setting up payment plans. The financial counselors also assist patients in qualifying for patient assistance programs to cover most of the out-of-pocket costs for expensive medications.

(15) Linguistic and Cultural Services: Our language proficient bilingual

Part VI Supplemental Information (Continuation)

staff, who we train and credential, performed thousands of interpretations

this year. This unique program, known for its excellence, is one of many

resources we provide to non-English speaking patients and families. We

also assist other area hospitals that call on us to adapt our linguistic

services module to their patient populations.

A summary of our community health improvement and other community benefit

activities is also provided in our Community Benefit Report posted in

Part I Questions Regarding Compensation

1a Check the appropriate box(es) if the organization provided any of the following to or for a person listed on Form 990, Part VII, Section A, line 1a. Complete Part III to provide any relevant information regarding these items.

- | | |
|--|--|
| ☐ First-class or charter travel | ☐ Housing allowance or residence for personal use |
| ☐ Travel for companions | ☐ Payments for business use of personal residence |
| ☐ Tax indemnification and gross-up payments | ☐ Health or social club dues or initiation fees |
| ☐ Discretionary spending account | ☐ Personal services (such as maid, chauffeur, chef) |

b If any of the boxes on line 1a are checked, did the organization follow a written policy regarding payment or reimbursement or provision of all of the expenses described above? If "No," complete Part III to explain

2 Did the organization require substantiation prior to reimbursing or allowing expenses incurred by all directors, trustees, and officers, including the CEO/Executive Director, regarding the items checked on line 1a?

3 Indicate which, if any, of the following the organization used to establish the compensation of the organization's CEO/Executive Director. Check all that apply. Do not check any boxes for methods used by a related organization to establish compensation of the CEO/Executive Director, but explain in Part III.

- | | |
|--|--|
| ☒ Compensation committee | ☐ Written employment contract |
| ☐ Independent compensation consultant | ☒ Compensation survey or study |
| ☐ Form 990 of other organizations | ☐ Approval by the board or compensation committee |

4 During the year, did any person listed on Form 990, Part VII, Section A, line 1a, with respect to the filing organization or a related organization:

a Receive a severance payment or change-of-control payment?

b Participate in or receive payment from a supplemental nonqualified retirement plan?

c Participate in or receive payment from an equity-based compensation arrangement?

If "Yes" to any of lines 4a-c, list the persons and provide the applicable amounts for each item in Part III.

Only section 501(c)(3), 501(c)(4), and 501(c)(29) organizations must complete lines 5-9.

5 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the revenues of:

a The organization?

b Any related organization?

If "Yes" on line 5a or 5b, describe in Part III.

6 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the net earnings of:

a The organization?

b Any related organization?

If "Yes" on line 6a or 6b, describe in Part III.

7 For persons listed on Form 990, Part VII, Section A, line 1a, did the organization provide any nonfixed payments not described on lines 5 and 6? If "Yes," describe in Part III

8 Were any amounts reported on Form 990, Part VII, paid or accrued pursuant to a contract that was subject to the initial contract exception described in Regulations section 53.4958-4(a)(3)? If "Yes," describe in Part III

9 If "Yes" on line 8, did the organization also follow the rebuttable presumption procedure described in Regulations section 53.4958-6(c)?

Form 990, Part I, Line 1, Description of Organization Mission:

Our mission is to support Temple University and its Health Sciences

Center academic programs by providing the clinical environment and

service to support the highest quality teaching and training programs

for health care students and professionals, and to support the highest

quality research programs.

Form 990, Part III, Line 4a, Program Service Accomplishments:

Temple University Hospital was founded in 1892 as "Samaritan Hospital,"

with the mission of caring for patients with limited incomes and

ensuring access to medical care in its surrounding neighborhoods. As

the chief academic teaching hospital of the Lewis Katz School of

Medicine at Temple University, Temple University Hospital (TUH) is an

879-bed non-profit acute care hospital that provides a comprehensive

range of medical services to its low-income communities, and a broad

spectrum of secondary, tertiary, and quaternary care to patients

throughout Southeastern Pennsylvania and beyond. TUH is accredited as

an Adult Level 1 Trauma Center by the Pennsylvania Trauma Systems

Foundation.

TUH is an indispensable provider of health care in the largest city in

America without a public hospital. Within our immediate service area,

about 30% of individuals live below the federal poverty level. Among

Pennsylvania's full-service safety-net providers, Temple University

Hospital serves the greatest volume and highest percentage of patients

covered by Medicaid.

In addition to its main campus in North Philadelphia, TUH includes its Episcopal, Jeanes and Northeastern campuses, which all serve economically and socially disadvantaged communities.

As our chief clinical teaching site, TUH is staffed by over 400 physicians of Temple Faculty Physicians as well as physician scientists from our affiliated Fox Chase Cancer Center and our community-based Temple Physicians, Inc. The Temple Faculty Practice Plan represents about 20 academic departments including subspecialties in emergency medicine, oncology, gastroenterology, obstetrics, gynecology, orthopedics, neurosurgery, neurology, general and specialty surgery, and psychiatry.

Temple University Hospital's Episcopal Campus provides a recovery oriented behavioral health treatment program, offering a welcoming approach and hope for those whose lives have been affected by mental illness and/or co-occurring disorders. It serves adults, age 18 or older, experiencing severe psychiatric symptoms that markedly impair their capacity to function adequately within the community. Many of its patients are diagnosed with psychiatric plus one or more substance/alcohol disorders. Almost half have one or both diagnosis of hypertension and or diabetes. Many have multiple co-existing medical illnesses.

Temple physicians also staff important clinics that address major public health concerns, such as the Comprehensive NeuroAids Center at Temple University, which is dedicated to improving the public health

impact of bench-to-clinic research associated with HIV-induced
neurological diseases and cognitive disorders.

Among our distinctions is the achievement of Magnet status from the
American Nurses Credentialing Center, a prestigious recognition of
quality nursing care, community commitment and staff dedication.

Temple's nationally renowned physicians offer state of the art
treatment options for patients with complex medical problems, some of
whom were previously considered untreatable. Using sophisticated
technologies and personalized treatments, Temple physicians are working
to alter the course of serious disease. In over a dozen research
centers, our faculty is speeding the transformation of fundamental
scientific discoveries into practical therapies with the potential to
dramatically improve human health.

As a premier transplant center, Temple University Hospital performed
342 transplants last year, including 99 lung transplants and 154 bone
marrow transplants. We also participate in countless research studies
to promote life-saving treatment modalities.

Our affiliated Temple Center for Population Health, LLC, (TCPH)
promotes and manages our population health efforts. Its mission is to
attain a sustainable model of health care delivery through clinical and
business integration, community engagement, and academic distinction to
promote healthy populations. The TCPH includes an extensive network of
Patient Centered Medical Homes; chronic disease management programs for
high risk populations utilizing nurse navigators; an extensive

inpatient and outpatient community health worker program, peer coaching, and a central access center for appointment scheduling and acute care follow-up. The TCPH ambulatory performance improvement platform provides the infrastructure on which outpatient clinics can continue to achieve better care, smarter spending and healthier communities. The TCPH collaborates closely with TUH to assure smooth transitions of care, access to community resources and management of value-based purchasing.

Virtually all Temple physicians, whether faculty or community-based, care for patients covered by Medicaid in both the inpatient and outpatient setting. About 86% of Temple University Hospital's inpatients are covered by government programs: 42% by Medicare and 44% by Medicaid. Patients dually eligible for both Medicare and Medicaid comprise about half of our Medicare inpatient base. Approximately 49% of our total inpatient cases include a behavioral health diagnosis.

TUH serves as a critical access point for vital public health services. Last year we handled over 160,000 patients in our Emergency Department; about 11,000 patients in our Psychiatric Crisis Response Center. We delivered over 2,000 babies, of whom nearly 85% were covered by Medicaid.

Below we summarize a few of our clinical premier programs. For a summary of our key community engagement programs please refer to our Schedule H.

Our Heart & Vascular Institute is a hub of innovative clinical care, research, and education. The Institute has 27 specialized programs and over 100 cardiovascular caregivers, many nationally renowned. Our staff draw upon their collective experience and our state-of-the-art facilities and technology to deliver high-quality, personalized care for the entire range of cardiovascular conditions from high blood pressure to advanced heart failure and transplantation. We offer patients the newest minimally invasive procedures, mechanical assist devices, artificial hearts, and advanced surgeries, including complex hybrid procedures and multi-organ transplantation. Temple is the fastest list-to-transplant site in the Philadelphia region, excelling in donor heart assessment, resulting in higher transplant rates and shorter times on the wait-list for candidates.

Temple Lung Center

Temple is an international leader in developing new therapies for serious lung diseases. Our Lung Center has over 20 specialized lung disease programs that provide highly focused care from physicians who are trained in specific conditions. A distinguishing feature of the Center is its innovative research program that is unraveling the mechanisms of lung disease, discovering new treatments and testing lifesaving devices. Our robust slate of clinical trials the largest in the nation for non-cancer related pulmonary disease provides patients with access to novel therapies. TUH also is one of the highest volume transplant programs in the nation with the best one-year survival rates in the Philadelphia region and the state of Pennsylvania.

Temple University Hospital has a 40-year history of excellence in organ transplantation, having performed Philadelphia's first heart transplant in 1984. Today, we have transplant programs for lungs, livers, kidneys, and pancreases, and bone marrow with excellent results. Our transplant teams have pioneered methods to improve organ donor health and avoid post-transplant complications.

Digestive Disease Center

Our Digestive Disease Center's large clinical practice and active research program enable us to apply the latest techniques to treat even the most challenging cases involving the esophagus, stomach, small intestine, gallbladder, colon, and liver. Our areas of specialization include colorectal surgery, esophageal disorders, bariatric surgery, gastrointestinal cancer, inflammatory bowel disease, motility disorders, and therapeutic endoscopy. In addition, our thoracic surgeons are part of the Digestive Disease Center team, performing upper gastrointestinal surgeries, often robotically. These include surgeries for esophageal cancers, Barrett's esophagus, gastroesophageal reflux disease and achalasia.

Neurosciences Center

The Temple Neurosciences Center offers advanced care for conditions of the brain, spine, and nerves. Specialized neurological programs contained within our Center address medical conditions such as stroke, multiple sclerosis, epilepsy, movement disorders, neuromuscular disease, and amyotrophic lateral sclerosis (ALS). Our Center is home to the nationally respected Muscular Dystrophy Association/ALS Center of Hope and a stroke program that has been nationally recognized for its high success rate in treating complex stroke patients. The Center's

strong basic science and clinical research program provides patients

with options for complex neurological conditions that other hospitals

may not offer.

Orthopaedics & Sports Medicine

Temple's Orthopaedics and Sports Medicine team includes many of

Southeast Pennsylvania's most respected surgeons and rehabilitation

specialists. Our team provides advanced, personalized treatments for a

wide range of injuries and conditions. This includes injuries of the

foot and ankle, hand, knee, shoulder, elbow, and spine. Our orthopedic

specialists also have special expertise in orthopedic trauma, joint

replacement, sports medicine, and physical therapy. Our experts combine

their experience and research with the latest technology and minimally

invasive treatment techniques to help patients achieve a pain-free

life.

Notable Awards & Distinctions

Our commitment to health equity drives every aspect of our business

model. It's one of the reasons TUH was named one of the most socially

responsible hospitals in the nation by the Lown Institute, ranking in

the top 2%, and earning 'A' grades for community benefit, inclusivity,

clinical outcomes, patient safety, avoiding overuse, and cost

efficiency.

Temple University Hospital recently earned its 7th Safety Grade 'A'

from Leapfrog, a national quality award for Stroke Care from the

American Heart Association, and recognition by Healthgrades with the

2024 Patient Safety Excellence Award, putting TUH in the top 10% of

hospitals nationwide for patient safety.
